# *Deliver Us*

*As God looks down upon our town today,  
He sees a loneliness about the square,  
For many a boy he once saw here, has left,  
To join a host of others "over there."  
He sees today, as yesterday He saw,  
The changes that are wrought in towns, by war.  
For Norwood's spirit stressing freedom's worth,  
Encompasses the corners of the earth.  
In oceans, jungles, foxholes, everywhere  
God looks—He finds a bit of Norwood there—  
Portrayed by boys who not so long ago,  
Walked down these very corridors we know.  
Joined in a true companionship—  
The mirth of high school days,  
Initialed books—traditions made.  
In countless different ways.  
They left their mark within these walls to stay.  
Now we would in our Tiot, tribute pay,  
To you who sail the seas and search the sky—  
You graduates of Norwood High who march and fight.  
A simple tribute—as to God we send  
Our prayers—that soon the present war will end—  
Letting a blessed, lasting peace descend  
Upon a world that's missed the little things  
Too long.*

*We pray*  
*That youth, with all the life and joy it brings*  
*To towns—in triumph may return.*  
*We pray*  
*That Norwood will come back again to stay.*

The class of '45 is indebted to the faculty, which for three years has so nobly labored to further knowledge among us. Our trials with the homework they had to offer us, were only exceeded by the constant disappointments they received the next day upon finding that it was still undone.

With gratitude in our hearts we thank them for the many nights that they denied themselves of sleep, thinking up questions to ask the next day. Even more to be appreciated are the hours they spent correcting the ingenious quizzes they devised.

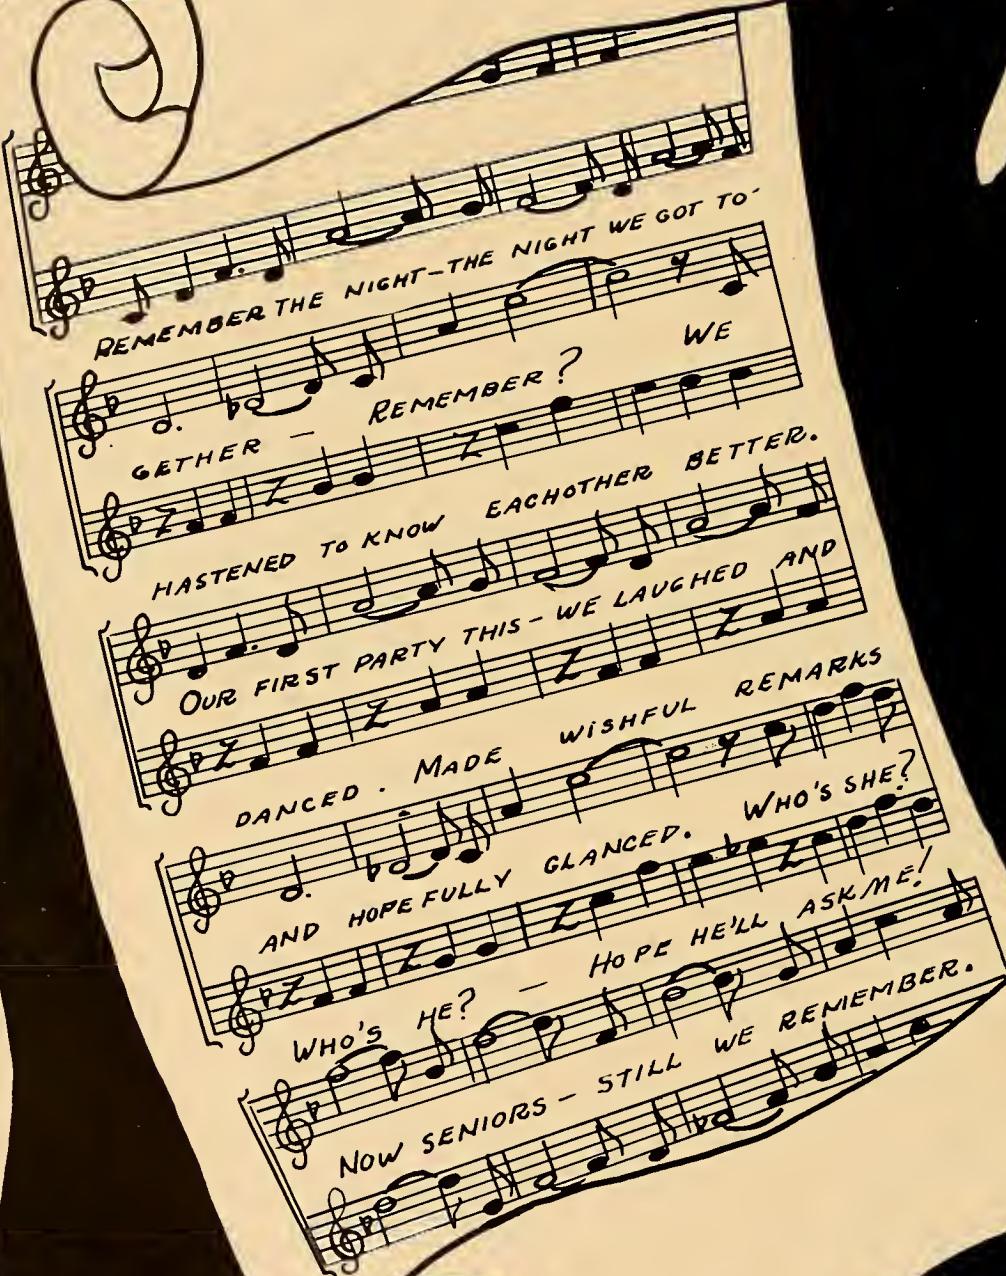

Now that the terrors which their efforts incurred are over for us, we can very well understand their viewpoint.

We like to feel that their work has not been fruitless, and hope that they share this opinion. Our three years relationship with them has enlightened us, not only scholastically, but socially as well. Their friendly counsel and cooperation with us in our activities will always leave pleasant memories.

## *When We Were Sophomores*

The rainy day that the class of '45 sloshed its way up the steps of "the school on the hill", a little wet behind the ears in more ways than one . . . the sheer novelty of being able to exchange pleasantries, hum and "hi" everyone while passing through the corridors . . . Norwood High's first Spanish class (may it go down in the records that we were the first to pursue the "Good Neighbor Policy" to said extent—and it did take sacrifice for some) . . . how the traffic officers stretched their imagination when giving directions . . . our first introduction to the consequence of bottle breaking . . . our lusty participation in the "down with bottle breakers union" . . . our somewhat timorous curiosity as to what was in the menu (prior to our foreign language training, of course) . . . the day Chubie, an indispensable member of the "friends forever in Shakespeare" English class, met Miss James. (Let it be noted that the three year veterans particularly, will cherish fond memories of this class and only wish that Miss James could feel likewise) . . . the memorable moment when we were conducted with due ceremonies to the voting booths to elect our class officers who were, "Eddy" Butters, President, James Long, Vice-president; T. J. Curtin, Boy's Treasurer; Audrey Woods, Secretary; Clare Payne, Girls' Treasurer; Barbara Woodberry, A. A. Council . . . that tinging thrill of pride in attending a football game in which the players are your classmates . . . the adoption of sophomore girls by the senior boys . . . the "time out" had for reconversion of the heating system, never was civic improvement greeted with more enthusiasm by high school students . . . the Y.D. S.O.W.T.O.G. (you don't see one without the other group) (Woodsie and Bacon, Barb and Charlie, Ted and Clare) . . . the beginning of the man power shortage . . . the noteable change in personnel at the school . . . the toils of learning to march in gym . . . the dear (?), dead days when sectional meetings and home room periods existed . . . the beginning of a hockey team in Norwood High School . . . the first faithful fans who commuted to the Arena, and later acted as apostles to the flock . . . the admiration and respect with which we regarded seniors (present seniors please note) . . . the fads of the day—the last remnants of hurachies squeeked their painful way down the corridors, fashion was preview ing "the barefoot girl", pinaflores prevailed, bangle bracelets tinkled, bow ties and loud shirts were the order of the day, fortunately, no zoot suits (our men were too sane and sensible for that) . . . the gals began to look ethereal at the mention of Sinatra . . . our baseball team in which four sophs participated . . . Mondar, Harrington, McDonough, and Parker were among those to share in the glory of being state baseball champions . . . the serious epidemic of spring fever that broke out in the sophomore class, the above mentioned not being adjusted to such a scenic environment about a school . . . the many nightmares incurred by pentagons, hexagons, and all manner of strange shapes met geometry . . . the "magnificent obsession" of becoming a senior which was one year nearer realization in June.

The quick step of self assurance with which we mounted the stairway on our first day . . . the air of superiority with which we regarded the sophomores . . . the tinge of envy we felt toward the present seniors, who seemed a bit alien . . . the ease with which we approached the voting booths this year to elect "Ed" Butters, President; Tom Curran, Vice-president; Romeo Bortolotti, Secretary; Buckets Chandler, Boy's Treasurer; Clare Payne, Girls' Treasurer; Ken Ahearn, A.A. May his soul forever rest in peace! He is one of the most unforgettable characters we have ever met; his name shall go down in posterity (or at least as long as "breathes there a member of the class of '45") . . . the first true appreciation of Weed's taste in apparel. Ah! those sock and tie combinations, with checked pants to set 'em off—simply out of this world . . . the languages in every well read high schooler's vocabulary, consisting of Dapper! Drolly! Umbriago! You old goat, you! Simply sharp! Need we go further? They all come back to us now! . . . the tonic for every red-blooded girl every morning—no, not sulfur and molasses, just a peek at Sinatra's face grinning out of each locker . . . the curious sounds that issued forth from Miss Nicholson's third period English class; that was a rare one we understand . . . the priceless discussions that the Junior girls had in Home Ec. class . . . the "back to the farm" era when girls started braiding their hair in pigtails . . . the Sadie Hawkins Day party, in which our female members proved that Al Capp's comic strip is not mere exaggeration . . . the crowning of "Topper" Curran as Mr. Norwood High . . . the trip to New York with the Drum Corps in March. Ah! Shades of New York! . . . Roger's brilliant exposition in assembly which made his reputation as a wit . . . the tests of our mental alertness in discovering whether signals indicated a fire drill or an air raid drill . . . the noticeable increase in insignia received from brothers etc., adorning our fems . . . the almost gluttonous way in which we began to eye that reserved section for seniors in assembly . . . unusual innovations that we dreamed up for class day . . . the anticipation of the forthcoming glory we had so long awaited . . . that of becoming SENIORS . . . # In Which We Arrive

---

From the artless ways of our Sophomore days  
We have risen — seniors at last.  
Serene and sage, our hopes ablaze  
We are ready to meet life's blasts.

This soapbox speech, though 'twasn't a peach,  
Has done what 'twas meant to do,  
So let's not be quacks, let's cling to the facts  
And tell only what is true.

The building shook, as it took a look  
At the class of forty-five.  
The tower's clock stopped at the shock,  
And never has revived.

Lab test tubes quivered and often slivered,  
When the gals grew scientific,  
Then the introduction of a pre-induction  
Math club proved terrific.

From rooms we "clipped" or "rolled" or "whipped"  
'Tis a wonder our nerves didn't jar,  
Our latest expression when things were depressin'  
Was to bellow "Hurrah for the Czar".

Behind the door of one thirty four,  
Met a motley crew each night,  
Who were quite contented while acting demented,  
Which seemed to be their delight.

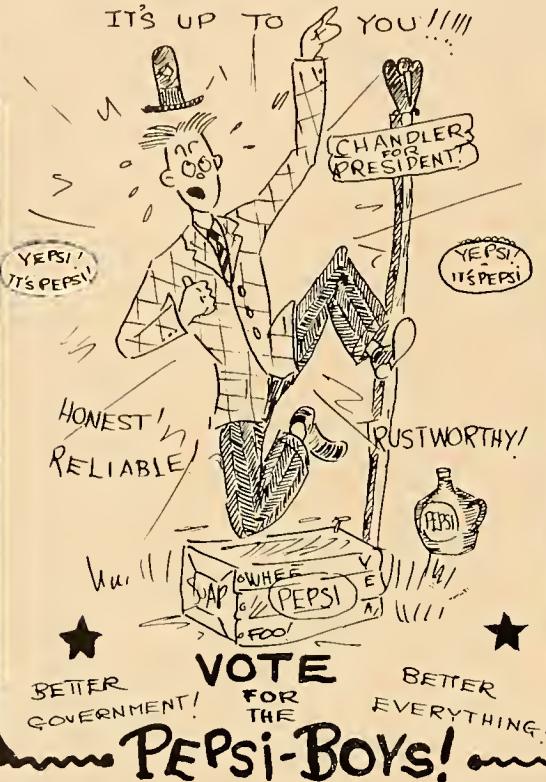

A baking course, then, held strictly for men,  
Made jests from the ladies rain  
Upon the heads of the Jacks and Neds,  
Who put them all to shame.

Now with quickening joy, each girl and boy,  
Thinks of his senior year,  
As a year well spent (at least half well meant)  
Whose memories he'll hold dear.

"HONEST ED" BUTTERS  
FOR  
PRESIDENT!

## The Campaign

We had no sooner returned to our books in September when the corridors began to buzz with speculation. "Who's going to be class president?" "Will Eddie run again?" "Will you vote for me?" Each question was asked a hundred times. Nomination papers were circulated, withdrawals were made, and then we finally saw the list of nominees.

Posters, gossip, and rumors all took their turn. Football vs. Pepsi—DeRoma vs. the world—"It's time for a change!" "Re-elect Ed", we listened quietly. "Darby worked like a demon for Eddie, Chi-Chi buttonholed everyone who passed his traffic post. Mr. Thompson agreed to hold a political rally at which each candidate could talk frankly and openly with the class about "the issues of this campaign". They talked, we listened and made our decision.

# BUTTERS ELECTED TO THIRD TERM; FOOTBALL TICKET SWEEPS TO VICTORY

## Curtin, Cavanaugh, Jordano, Bortolotti, and Petraitis Win

Complete returns early this morning indicated that "Eddie" Butters and his Football ticket have been elected in an overwhelming wave of votes which saw all but one of the "Pepsi-Boys" go down to defeat.

After completing what was probably the hardest fought political battle that the "hill" has ever witnessed the Seniors went into their voting booths and returned President Butters to a third term, electing with him T. J. Curtin as Vice President, "Archabus" Cavanaugh as Boys's Treasurer, and Frank Jordano as A. A. Counsel. The only non-footballers to survive were Nell Petraitis, an independent, who was elected Girl's Treasurer, and "Neenie" Bortolotti, the "Pepsi-Boys's" candidate for Secretary.

Butters victory was clear cut and decisive. Out of 161 votes cast he received 84, or a clear majority. "Chi-chi" DeRoma, who conducted the most vigorous campaign, ran second while "Bucket's" Chandler finished third. The Chandler vote

was the most surprising feature of the election as almost all observers had given him a 50-50 chance to beat Butters. The Butters organization was a key factor, delivering votes, on the line, to every footballer on the ballot. Darby Grcaney and his cohorts did a tremendous amount of work in swaying the on-the-fence voters.

The election was decided in the quiet confines of the Peabody School. The "girls" voted football pure and simple from Butters to Jordano right down the line. A sampling of the vote will bear this out. In one typical block of twenty votes the results gave: Butters 15, Chandler 1, DeRoma 4; Curtin 16, Curran 4; Cavanaugh 18, Parker 2; Jordano 16, Harrington 4; Petraitis 11, Payne 7; Ahearn 3, Bortolotti 10, Valma 7. Thus the footballers piled up over a thirty vote lead in the Peabody School.

In the lesser contests the same pattern was followed. In the Curtin-Curran battle, scheduled to be the hottest on the ballot, Curtin won handily. Cavanaugh and Jordano upset all predictions by trouncing their opponents. The fact that the gentlemen "did not choose to speak" at the

pre-election rally apparently did not harm their chances in the least. "Archabus" received more votes than did any other candidate on the ballot.

Nell Petraitis neatly trimmed Clark Payne for the Girl Treasurer's slot. The savage cutting of Miss Payne by the ladies of the class plus the fact that a great part of the football vote fell into Miss Petraitis' lap and that contest needs no further explanation.

"Neenie" Bortolotti proves the exception to all that has come before. He carried the Peabody School where his colleagues had fallen down badly and received consistent and substantial support in all sections of the High School. The presence of Valma and Murphy on the ballot did a great deal to insure a Bortolotti victory. Imagine for a moment to whom the Valma and Murphy votes would have gone had they not been candidates and you will understand "Neenie's" excellent position.

The class has spoken. It's Butters, Curtin, Bortolotti, Petraitis, Cavanaugh, and Jordano who will lead us through '45. We are confident that they will make us proud.

President Butters received the following telegram from Mr. DeRoma early this morning—"Mrs. DeRoma (Joan) joins me in extending to you best wishes for a most successful term."

One of the last things we did as Juniors was to elect our Traffic Squad for '44 - '45. The thirty odd members organized with "Rog" Woodworth, Captain; "Buckets" Chandler and "Kenny" Berkland, Lieutenants.

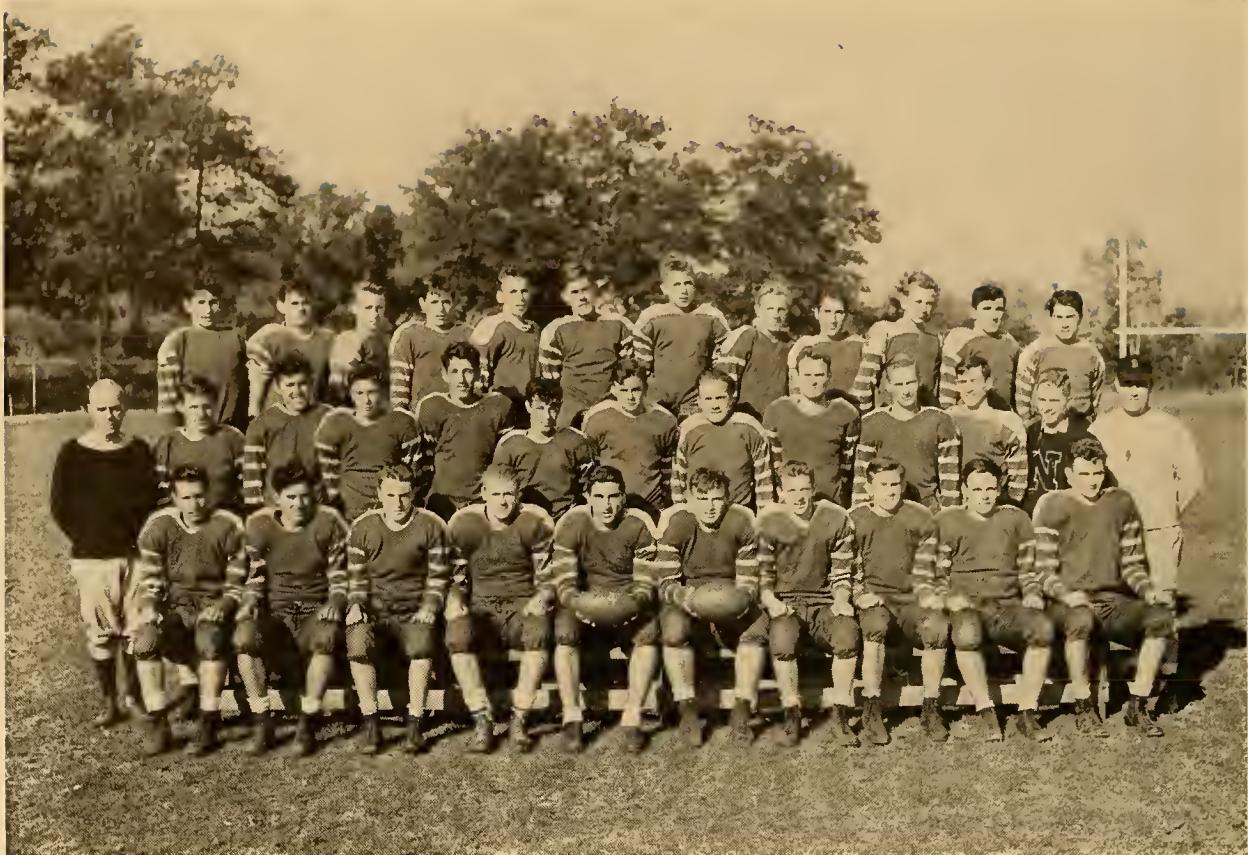

In September the Constabulary began to function. Sophomores were found wandering around in the boiler room vainly seeking Miss Metcalf's French I class. One innocent young gentleman even strolled into the girl's locker room. Of course the Traffic Squad knew nothing of these occurrences.

The Traffic officers in Miss Johngren's French III class entered the room very late one day. "Traffic was very heavy, Miss "J", they chanted. Seating themselves they began to study feverishly. Two minutes ticked by. Miss "J" began to pass out paper for "un petit examen". "Sorry but we can't stay, traffic you know" they screamed as they fled down the corridor.

For one reason or another some Seniors found it necessary to leave "the service"—usually at the suggestion of the office. Vacancies were filled and dignity slowly took the place of chaos.

By November, therefore, most of the members of the faculty were willing to concede that, like the Senior Class, the Traffic Squad was a most unpredictable body, but, that, with few exceptions, it did its work well.

# FOOTBALL

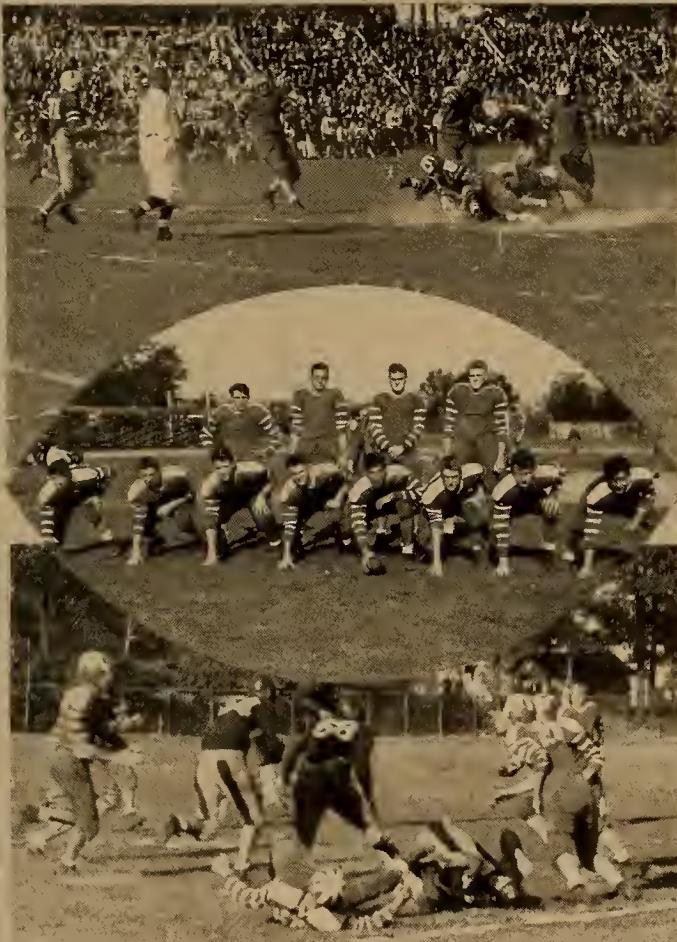

On a mild day in September of 1944 over 7,000 pounds of eager but inexperienced gridiron material trotted out onto the Norwood High Athletic Field to begin preparation for the third wartime football season. When Head Coach "Ben" Murray and Assistant Coach "Dick" Murphy called the roll they found only four lettermen were returning for another season of football wars; they were Co. Capt. Frank Jordano, Co. Capt. Eddie Butters, Tony Yelapi, and Pete Carchedi. Consequently seven posts were to be filled by lads comparatively new to the game. After a few weeks of rigorous conditioning the eleven met Needham High outfit and after a titanic struggle the contest ended in a stalemate. Then followed a series of hard fought contests which were lost to the enemy. Just at the time that the boys started to play smoothly as a unit the academic axe fell and four men were cut from the squad. Following the departure of these four, Norwood was swamped by North Quincy, trounced a weak Scituate eleven and was in turn defeated by veteran untied, unscored upon Dedham eleven. The season was featured by the introduction of the highly touted "T" formation, but this was not sufficient to prevent the series of unfortunate "accidents" which were encountered each Saturday afternoon. The following boys bid a football adieu to Norwood High; Co. Capt. Frank Jordano, Co. Capt. Eddie Butters, T. J. Curtin, Ken Cavanaugh, Ken MacDonald, Ron Venteroso, Paul Fulton, Lee Dolaher, Bill Kendrick, Bob Chandler, "Butch" Collins, Dick Donahue, Mel Doucette, Mike Georges ,Vin Kasauskas, Jim Long, Jack Richardson, Ted Tomm and Tony Yelapi.

# O-o-oh Y-e-a-h!

*Lect to right*—Chamberlain, Coakley, Shimsky, Payne (captain), Pothier, Woodberry, Domenico

Great roars fill the stands as seven zippy cheerleaders lead the howling mob in wild pleas for victory. With a wicked gleam in her eyes, Captain Payne chants, "Are we hep one-two-three?" and her snappy squad proceeds to demonstrate that it is just that. Those leaders, Clare Payne, Barbara Woodberry, Millie Shimsky, Phyllis Pothier, Faith Coakley, Bob Chamberlain and Louis DiGiandomenico really put their all into spurring on the home team. Through the efforts of these super cheerleaders, the spectators catch the spirit of the game and cheer deafeningly at the proper moment. A united crowd sings the special repertoire of songs and ditties designed to pep up everyone within hearing distance. Bands may play, crowds may shout, but nothing can equal the performance of an "on the ball" set of cheerleaders. Norwood High rooters aren't the only ones who will remember this year's cheering squad.

# Refreshing Memories

This year a valuable and extraordinary innovation was introduced at Norwood High. A special course in baking was arranged for senior boys by Mr. Thompson in conjunction with Miss Marcionette and classes were held weekly in the Peabody School bake shop. The course was designed to aid those who may desire to obtain the position of baker in the armed forces (or in later life). Eighteen boys took advantage of the fine opportunity open to them and faithfully attended classes throughout their senior year. Under the astute guidance of two excellent teachers, Mrs. Coite and her assistant, Miss Marion Chubet, rapid and unexpected results were obtained! The class first learned the art of measuring and mixing, and then the fun began! It was soon evident that a better than average class had wended its way to the oven door, as the results obtained were always of an excellent standard. Upon completion of the course in May the boys were full-fledged culinary experts, and were capable of turning out viands that would please the most critical gourmet.

## "Seventeen"

While we were waiting for the lights to dim, the noise to subside, and the curtain to rise, memories of the past six weeks rushed over us. We were nervous and excited at the prospect of making our stage debut, and yet we remembered many heart-warming incidents which had occurred during our several weeks of rehearsals.

The two months, that we spent rehearsing the play, were far from laborious. In fact, our bantering and fooling must have discouraged our charming coach, Mrs. Charles Donahue, on more than one occasion.

For instance: The night that Mr. Baxter, better known as Rog Woodworth, conceived the brilliant idea of serving apple cider at rehearsals. From this night until the memorable evening of December 1, we spent almost as much time drinking cider as we did rehearsing . . . Yonny Holman's antics with his pail and mop belonging to the Janitors, sent everybody into gales of laughter . . . Darb Greaney's daily symphonic concert before, during and after rehearsals, amused all, including corridor occupants . . . Pat Connolly's regular lunch, consisting of bread and jam, which she displayed when everybody else was beginning to hope that she would, created many arguments about—who would share Pat's lunch . . . Charlie Parker's wolfish tactics and Chubie's clowning interrupted many rehearsals . . . Ken Ahearn's frequently rehearsed speech of "Damn those kids", created much amusement for all . . . Mary Alice Murphy's and Phyllis Pothier's fits of giggling, proved to be very contagious . . . Betty Ann Ryan and Clare Payne discovered that their persistent attempts to study French during the rehearsals were fruitless . . . Mary Warnke's good-natured disposition and Steve Davol and Jack Bouchard's sense of humor helped to make a pleasant atmosphere at all times.

Before we realized it, December 1, was here. "Seventeen" was a grand success. The hall was filled to capacity. The cast enjoyed themselves so much that they wanted to give another performance on the following evening. Although, we were sad at the realization that the play was at an end, we all knew that we had many happy memories of our Senior play to cherish forever.

## The Charms of

June, 1945

Personnel Office  
World-Wide Corporation  
Land of Opportunity

Gentlemen:

Here is an opportunity you cannot afford to miss! In June, out of these halls of learning will come forty-two career-minded, technically trained, socially inclined young ladies.

For one, two, or three years, this "top priority" group has been trained in the techniques of/or: (a) sewing a fine seam, (b) baking a tasty cake, (c) creating a stunning hair-do, (d) typing a perfect transcript, (e) calculating a correct total, (f) selling a bill of goods.

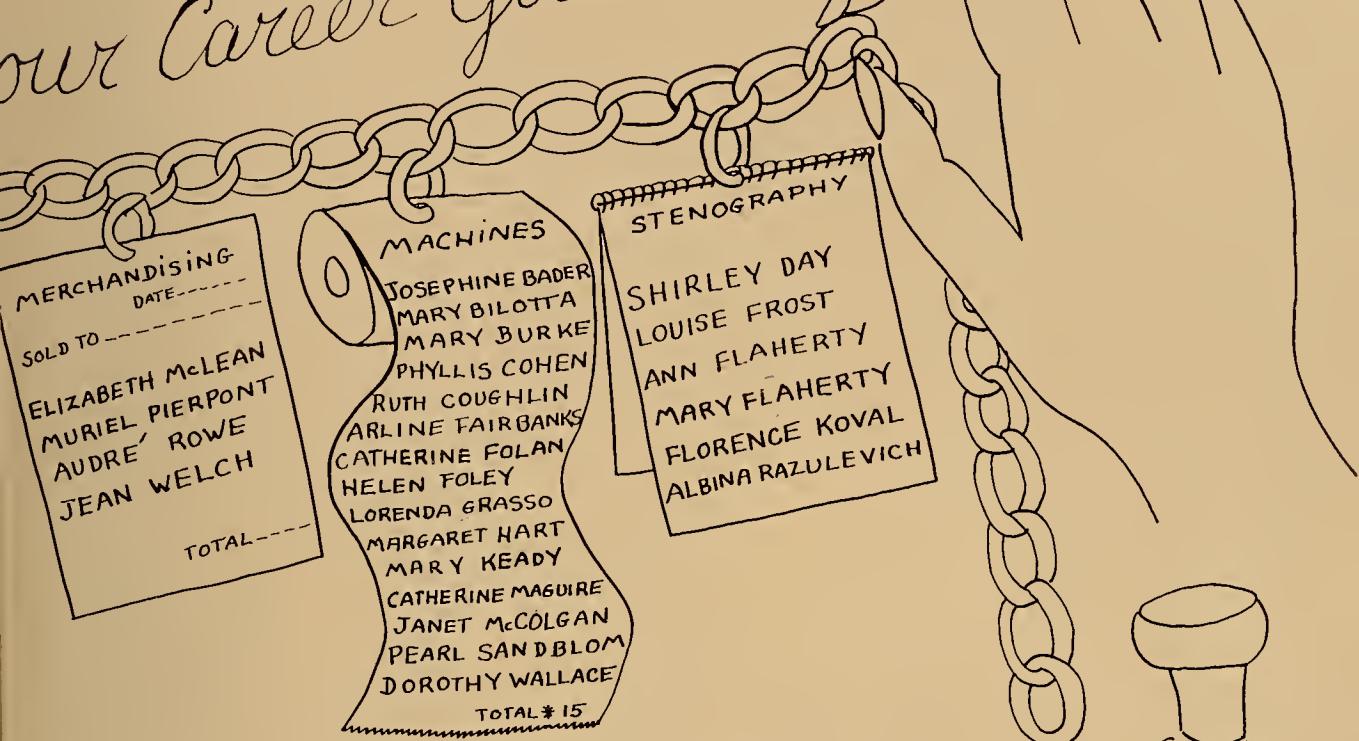

The extra curricula activities participated in by this group have netted "additional 'charms':

- (1) The ability to make friends easily: The "Get-Acquainted" Party, Thanksgiving and Christmas Dinners.

# SCHOOL FOR GIRLS

*our Career Girls*

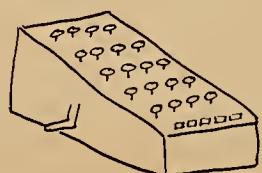

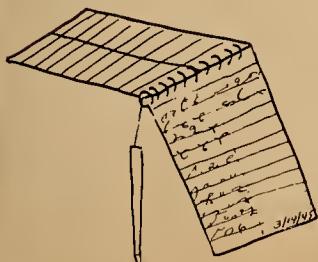

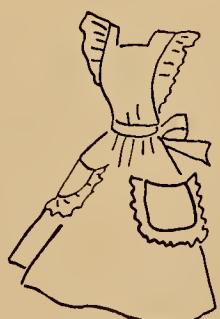

June, 1945

Personnel Office

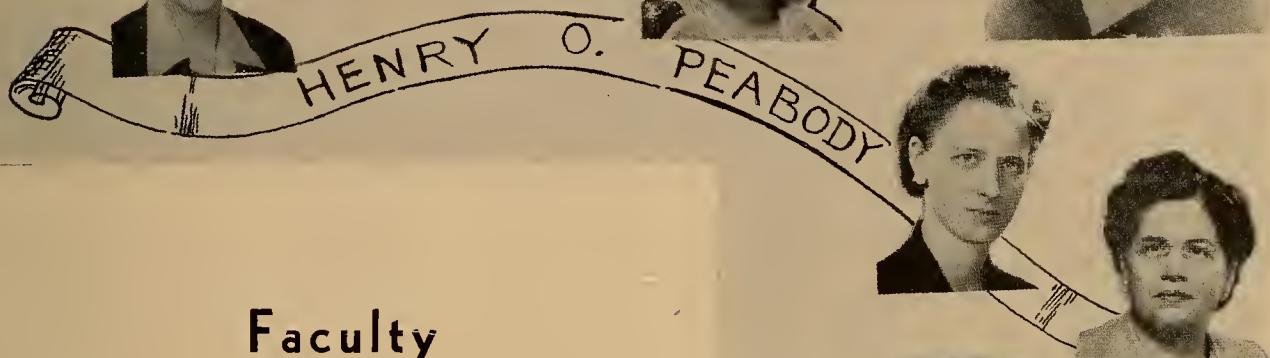

- (2) The talents of "charming" hostesses: Open House Night, Vocational Days, and Spring Fashion Show, (where many also learned the fine art of modeling).
- (3) The capacity to acclimate to all kinds of weather: for beside the storms which unfortunately (?) closed the school, sometimes the radiators refused to function in the dead of winter.
- (4) The stamina to brave the trials of competitive work: The State Board and Civil Service Exams, with (pardon the boasting) admirable results.
- (5) The technique of working with YOUNG MEN as well as enjoying their companionship. The boys invaded our bakery for a Pre-induction Course; and the never-to-be-forgotten Prom was a highlight in the Spring.

For further character and ability references, apply to the Student Co-operative Association officers: President, Ann Flaherty; Vice-president, Marion Chubet; Secretary, Margaret Hennessey; Treasurer, Mary Santoro.

Sincerely yours,

## Tiot Staff

Left to right, rear row—Bailey, Advertising; Folan, Art; Bortolotti, Art; Chamberlain, Advertising; Curtin, Photography;  
Ahearn, Circulation; Curran, Circulation.  
Front row—Bonica, Editor in chief; Woodworth, Editor in chief.

After being elected by their classmates, the Year Book staff immediately set to work, using room 134 at its official headquarters.

This room was destined to become notorious during the next few months. The passerby was often liable to see the "motely crew", making all manner of gestures, reaching for the roots of their hair, imploring the Muses, and engaging in generally heated discussions. Occasionally the rising voices were forced to retreat to the library ,when our long suffering principal, Mr. Thompson, had borne all he could of the eerie sounds that made their way from the room adjoining his office.

With the sword of an early deadline tetering above their heads, the staff made at least a feeble attempt to systematically accomplish their task. Often, however, they were inclined to forget the motto, "Don't put off until tomorrow what you can do today," reversing it to, "don't do today what you can put off until tomorrow." Consequently, they were behaving a bit more demoniacally than usual, as 'the date approached.

However, with the cooperation of many kind sympathizers the Tiot of '45 was finally completed.

"Merci Dieu" uttered the staff, consisting of co-editors-in chief, Stephanie Bonica and Roger Woodworth . . . photography editor, Timothy Curtin; co-editors of advertising; Helen Bailey and Robert Chamberlain; co-editors of art, Romeo Bortolotti and Martin Folan; and co-editors of circulation; Thomas Curran and Kenneth Ahearn.

# HOCKEY

Front row, left to right—Camillio, Donahue, Captain Mondor, Jankowski, Coach Learnard, Doucette, Harrington, Folan, Collins.  
Rear row—Bortolotti, Billingham, Ahearn, Curran.

At the beginning of the season it appeared certain that Norwood would have its most successful season since its entrance into the Bay State League. There were even some rabid Norwoodites who spoke of taking the championship and their arguments were not unconvincing.

With only two regulars, Captain "Brud" Mondor and "Franny" Harrington along with three second stringers, "Spook" Donahue, "Neenie" Bortolotti, and "Ken" Ahearn returning from last years squad Coach Learnard had a tough job in choosing his starting lineup and getting his team in shape to open the season against an experienced Walpole team. Because of the lack of ice Norwood was handicapped but the lads went to the Arena with high spirits hoping to knock Walpole out of the running and begin a drive that would land them at the top of the pile.

Though we suffered a 7-2 defeat the spirit of the team remained high and Waltham was easily bettered 3-1 in the second game of the season. The B. C. High game was next on the roster and had it not been for the absence of "Franny" Harrington who was helping out Uncle Sam on the mail trains we would have won the game handily. Framingham and Watertown were easy victims but Wellesley proved too much and we dropped back into the losing column once again. The Needham game which followed the Wellesley affair was the most exciting game of the season. Marty Folan's net tending and the rest of the team's beautiful skating were the means that enabled us to eke out a 1-0 win.

The playoffs then began and Norwood drew Walpole, Wellesley and Needham, the toughest teams in the league. In the games that followed we bowed to Walpole and Wellesley but took the Needham game to end the season in third place.

Good sportsmanship and team play predominated throughout the entire season, every Norwoodite being proud to say "That's our team!"

LET'S GO, GANG!

# Class Will

We, the graduating class of 1945, of the town of culture, Norwood, and the state of enlightenment, Massachusetts, do hereby set ourselves on this first day of June in the year of our Lord, nineteen hundred and forty five, to make, publish, and declare this to be our last will and testament. We, hereby, being of sound memory, revoke all wills, codicils, or testamentary instruments heretofore made by us individually or collectively, and do make the following bequests.

**ARTICLE I:** To Mr. Thompson and our faculty, we hereby give witness of our intellectual indebtedness to them, together with the assurance that theirs has been a happy and deep-rooted influence. We hope that they will remember us with affection, realizing that, although we were not as good as we might have been neither were we as bad as we could have been.

**ARTICLE II:** To Jean Connolly, our office clerk, we leave all our marks and records. We feel that this is a personal gift, not to be tampered with by anyone else. They are all yours, Jean!

**ARTICLE III:** To the janitors, we leave a senior class as co-operative as we have been. (?)

**ARTICLE IV:** To the class of 1946, we bequeath the following rights and privileges:

A. All members of your class may be in their respective home rooms any time after 7:00 A.M. and not later than 8:15 A.M. otherwise invitations will be issued by Miss Gow or Mr. Gormley to visit them at their offices.

B. We bequeath each and every member of the class the honor and right to attend classes six periods a day and five days a week from 8:15 A.M. until 1:30 P.M.

C. We leave reserve seats for weekly assembly in the center section of the assembly hall with no extra charge.

D. We leave you blueprints to build a smoking room on the football field because we feel that in future years the classes may not be playing football.

E. To the traffic officers we leave sufficient funds to install traffic lights and rotary circles. If any money is left over we suggest the purchase of some whistles and "No Loitering" signs for the corridors.

**ARTICLE V:** Robert Wohler's recipe for making A's we leave to the Junior Class, confident that such a gift will help the Class of 1946 to at least approach the standards of the Class of 1945.

**ARTICLE VI:** Roger Woodworth, a name that shall be numbered among those of Demosthenes, Cicero and Webster, Communists, Socialists and other addicts of the soap box commemorates his departure from this house of learning with one final memorable oration.

**ARTICLE VII:** Ken Cavanaugh bequeaths to the treasurer of the class of 1946 carbon copies of his platform speeches used throughout the year. Ha! Ha!

**ARTICLE VIII:** Mary Warnke, to the tender mercies of her successor, leaves with tears in her eyes her beloved typewriter, adding as a final plea to "Please, oh please do right by it." Like a woman, it is a willing creature and will be led but never driven.

**ARTICLE IX:** Robert Fleck leaves to any junior who has the sensitiveness to cherish it as he did the words and music to "Stars in the Velvety Sky".

ARTICLE X: Betty Ann Ryan wanted to leave her motherly instincts but we feel that she will need them later on in life.

ARTICLE XI: Nancy Colby gladly leaves her French books to Betty Ann Butters just in case you decide to resume your study of French, Betty Ann.

ARTICLE XII: Patricia Connolly's pleasing personality is to go to Jean Sansone.

ARTICLE XX: T. J. Curtin bequeathes to some fortunate member of the class of 1946 a poem written by him for an English assignment. He fears that the same assignment may be given again next year and T. J. says that some people find it hard to compose poetry. (Original) question mark . . .

ARTICLE XXI: Stephanie Bonica and Helen Bailey leave their scholastic ability and business efficiency to Virginia Nuttall and Phyllis Crowley.

## SQUAWKS:

A few stifled cries at first, but then loud wails. There was some chatter about a play by the Sophomore class. However, when we discovered how much time had been left to us on the social calendar (none) by our older brothers and sisters of the Junior and Senior classes, we decided to do our Shakespeare proximo anno . . . In other schools a relaxation period is a pause when students gather together and mention *That blonde, The test*, and crack the latest moron jokes. Other schools are madhouses at this time . . . no order, peace, or quiet. We don't talk about these things, do we? Silly boy! Is our school a madhouse during relaxation? Why natch! . . . For those who doubt our sincerity about relaxation we would advise them to think it over (if you can think) in the lunch room. If you dropped a bottle of milk, nobody razzed you—everyone did. And for a menu, may we suggest creamed egg on boat-toast with home-made brownies, fresh from the oven. Yum, Yum . . . It isn't that we wish to become athletes or anything. We just like to do mat work so that when we leave the gym we will be able to say we have just arrived from Florida. The tan you get is O.K. . . . And it's T.S. (a tough situation) when those black-hearted, bad acting traffic officers start pushing us around. We didn't mind relaxation, the mats, but when we're sent to the third floor to find room 106 (the "Hangout") . . . La Fin.

## FIRST STEPS:

We had scarcely passed the creeping stage when we found ourselves toddling about trying to elect our class officers. Our steps became steadier and after a great deal of campaigning and controversy they were duly elected. We were just beginning to stand on our own feet when we started to trip the light fantastic at our first social function, the Sophomore Party. At any rate it was the greatest step of the Sophomore social season! . . .

## FIRST CHANGES:

Things were all wet when we started but there have been some changes made. The baby came to the High School all in a dither over continuing Journalism work. We settled for a mimeographed sheet in which were the best works of the six Sophomore English classes. Thanks to Miss James, our first step toward another literary production on the Hill was one idea that wasn't washed away.

## PROBLEM CHILD:

check:

X yes .....no

Baby's broke! (or so it would seem.) Paying class taxes is as disagreeable and painful a procedure as cutting our first teeth. It is realized of course that that Friday night date just has to be impressed, but by the time we get to be tall and stately seniors we will be *working* every Friday and Saturday night in an attempt to keep our class out of debt. We're just as anxious to part with our hard earned (?) money as we were with those first teeth.

# RECORDS

## HEALTH RECORD:

We were in fine shape (not including the days after U cards were issued) and then we were informed of the T.B. test. It bothered most of us to think we might have to reveal the names of those we had come in close contact with (quite a job for the majority and definitely embarrassing for quite a few.) It has been rumored that a few of our famous football heroes passed out before even coming into range of the needle—could be they were hoping for a pretty nurse.

## NEEDS:

One can of talcum powder, and that about covers everything.

## Junior Jumble

On September sixth, 1944, 190 erstwhile Solemn Sophomores became Jaunty Juniors and proceeded to tackle the task at hand—that of covering 'ye hoste of books', after which class was dismissed. That night we poor mortals 'sufficed with fatigue, retired to our nocturnal couches and sank into blissful slumber'. (We were bushed, so we hit the hay for some shut-eye.)

Then there unfolded in the subconscious minds of your Junior Scribes, a dream:

In fantasy we saw this class, all seated at a table.  
Our task, it seems, was to digest as much as we were able.  
In marched our books with heavy tread; then, mercy! What a clatter!  
For each and every volume there had bounced onto a platter.  
We started in with Spanish Soup, an Entree full of Latin,—  
Then came a dish of Sauteed French and History, too, au gratin.  
(We half expected then to see Demosthenes and Cato  
Accompany a side dish of Old Socrates and Plato.  
We looked about quite anxiously, but noticed not a bottle  
From which we might extract a swig of ancient Aristotle.)  
Our teachers served us all right well, and kept on the alert;  
Thus when we'd licked our platter clean, they brought on the dessert.  
Came Algebra and English and Biology Supreme  
And as they served the Chemistry we wakened from our dream.

Needless to say, the next few days brought the realization that the feast of knowledge had been in truth an imaginary event. Our class was not wholly of the intelligentsia. Upon exploring the recesses of memory, we recalled one succulent morsel from that 'Soup Sublime',—an old Spanish proverb which says—"Who sleeps much learns little." After pondering this, we flouted the curfew, turned to night life, and adopted ten o'clock as our bed time.

As the weeks passed, we became adjusted to routine and before long we were all "on the ball".

The pupils of one Latin Class early displayed remarkable skill in vocabulary. It seems the malodorous results of an "Experiment Perilous" in the Chemistry lab wafted their way, whereupon each erudite scholar delicately pinched nose with thumb and forefinger and muttered "Olet". The teacher gave them all "A" for the day, for she, too, knew it smelled.

Tempus sure did Fugit, and each day our Junior Class became more infused with learning, (or do we mean confused?). In Biology several of us mingled with Sophs to learn about the Birds and Bees. "Strange Music" frequently emanated from Voice Training and Harmony.

Students of Junior English memorized the important facts—"Accentuate the Positive, Eliminate the Negative," etc.

Members of this Junior Class are well acquainted with the meaning of those initial groups we hear so much about. W.P.B. up here on the hill means—Women's Powder Brigade. O.P.A. in Biology means—Onion Peels Analyzed, and down in the lunchroom, W.L.B. stands for—Who Likes Baloney?

A number of brave souls tunneled their way to an evening of fun and entertainment at the class party on February sixteenth.

Spring—and as far as the naked eye could see were groups of young sprouts and 'Melancholy Dames' (or should we say Mona Lizards) gazing wistfully at nature. Oh-hum! What are books in spring? With occasional encouragement in the form of "You'll be sor-r-ry!" or "Straighten Up and Fly Right" we all weathered the verdant season—Prom and all.

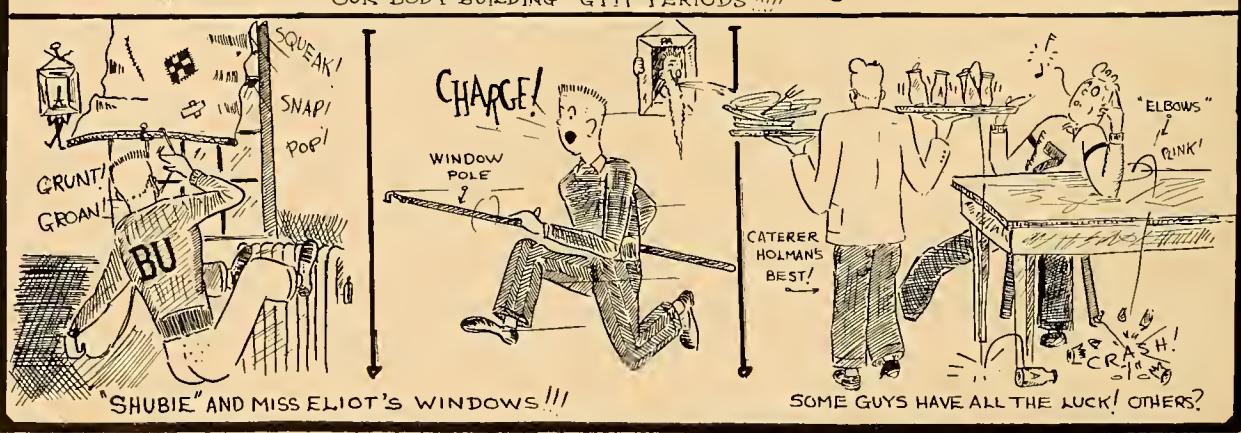

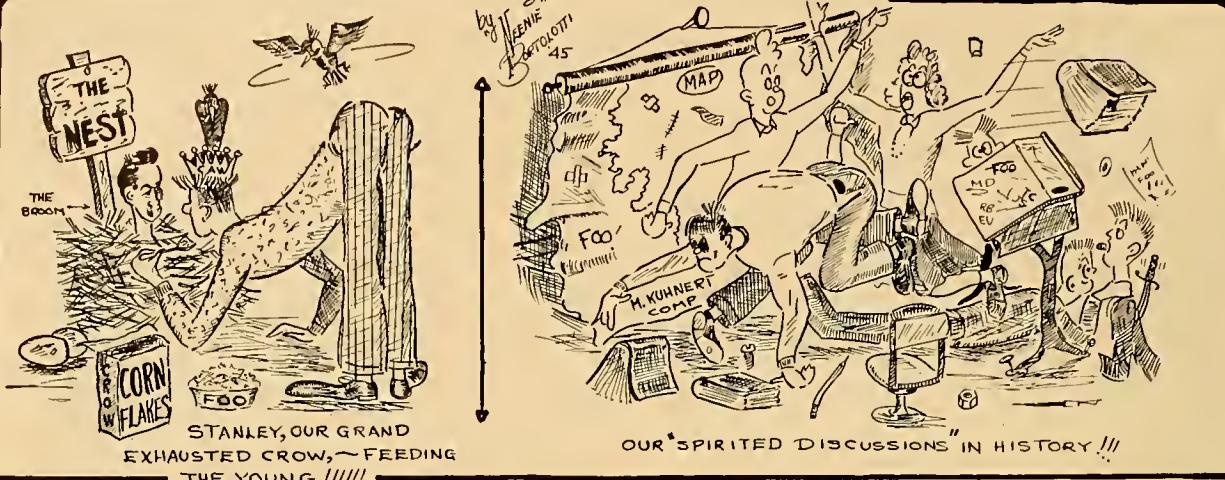

As the school year draws to a close, we Juniors feel we are a long way toward becoming Successful Seniors next fall.

In summary, we would like to say, "Hubba-hubba".

Chosen for his speed in talking and knowledge of the game, Ed Butters will fit his corpulent form into a table-side seat to broadcast this exciting event. The town has taken on the extra cost of engaging New York's favorite bouncer, Buzzer Jordano, to stand by in case some spectators get heated while watching the exchange of maneuvers.

### GEORGES TO MEET HAWLEY IN MAIN EVENT TONIGHT

In the feature event of the A.A.U. track meet tonight, Mike (the "Golden Streak") Georges is favored over his old schoolmate George Hawley. Georges tells me that he and Hawley ran on the great track team of Norwood High, where they both attended during the more successful years of Norwood track history.

Don Bodge was surprised last night when Bob McGrath was thrown into his lap at the wrestling matches. McGrath was thrown out of the ring by "The Spook." Bodge, who is a professor at Harvard, greeted him with a cheery, "How goes the night, boy?"

Two former Norwood High graduates, Bob Chamberlain and Kenneth Ahearn are to take on Sam Snead and Byron Nelson in eighteen holes at the Norfolk Country Club today. The Chamberlain-Ahearn combination has agreed to spot the challengers two strokes per round to make contest exciting. Don Warde and Leo Dolaher will watch the balls while "Honest Darb" Graney will keep score to insure against pencil pushing.

Five talented members of the 1945 Norwood High Hockey Team have met with sparkling success in their first year in the pro-hockey world. Player-manager, Ed Mondor has whipped these amateurs into fast, hard-checking, first-linemen. Sparking the onslaught are: Fran Harrington, Spook Donahue, and Ed Mondor. Butch Collins is a bulwark at defense. Bespectacled Romeo Bortolotti has been taking time off from his regular cartooning job with the Saturday Evening Post to play second line.

If one should venture into Tomm's Recreation Center in the heart of downtown Boston, one would see a strange sight. Gathered around the billiard tables could be seen four men, all graduates from the same high school. Stranger yet, is the fact that Ted Tomm, the owner of the Center, came from Norwood High the same year. The four men in the playoffs are Ken Cavanaugh, Ken Berkland, Fred Carroll and Ken MacDonald.

The misses' Barb Coughlin and Joyce Laverick have become such experts at roller skating that they have been advised by all to have their famous legs insured by the well-known firm of Lloyd's of London.

### TRIPLE THREATS CALL FOR CHALLENGERS

The three aces of the Skeet Shoot League, Kasauskas, Oclschlagel, and Maini, yesterday called for challengers. In the last match played, the Triple-Threats defeated the Straight-Shooters in a heated contest. A strange coincidence was that all six of the contestants hailed from Norwood High in 1945. Henry, Tarpey, and Reynolds made up the Straight Shooters.

### PINE AND WENSTROM COMBINATION TO FACE PARKER AND GARNER

The kings of the ten pins, Pine and Wenstrom, are to face the up and coming princes of the alleys, Garner and Parker tonight at the Norwood Table Tennis, Billiards and Bowling Palace. The "Hideout," as it is more commonly called, is owned and managed by Victor Dyer, Jack Donahue and Paul F. Fulton. "Two-gun Tex" McDonough will be the official score keeper while Vito Pennacchio counts the pins to be sure they are all set up.

**WHO'S WHO AND WHY**

By Peggy Hart and  
Helen Folcy

Speaking in newspaper talk, "Cheesecake is still in the box office," applies to Shirley Day. She is a model and really good . . . Elizabeth McLean, better known as "Scoop" because of all the scoops she has made, was citated on the wonderful pictures she took of Phyllis Cohen, a noted flyer . . . Miss Janet McColgan won the title of Miss Massachusetts . . . Marion Meeker is a hair-stylist . . . Lola Paolucci is a famous model for "Pepsodent Smile." . . . Evelyn Jodoin possesses the most beautiful hands in the world . . . Agnes O'Toole was named as the hosiery model at "Dainty Dot's" hosiery sale.

## The Student Council

Left to right—Woodworth, President; Pink, Vice President; Woodberry, Rec. Sec.; Greaney, Cor. Sec.; Butters, Treasurer;  
Payne, Harrington, Chandler, Ahearn.  
Second row—Mondor, Legge, Curran, Chubet, Sansone, Mahoney, Perniola, McDonald.  
Rear row—Tomm, Billingham, Nordbloom, Blasenak, Sykes, Murray.

The Student Council began the fourth year of its existence last September with officers, and home room representatives all determined that the Council should have a banner year. Plans were immediately begun to transfer their hopes into realities.

A War Bond Rally, speeches in Assembly, and pep talks in the several home rooms were instrumental in our flying of the Treasury Flag for two months this year as this goes to press.

Early in the school year the Council voted to give a jacket to every football letterman. A dance and raffle were conducted to finance this appropriation. Among other bills the Council passed legislation providing for:

. . . cheerleaders to be elected in June rather than September with a "tryout" assembly preceding the election.

. . . three standing committees appointed by the President to study and hold public hearings on all bills, reporting their recommendations to the Council for final action.

. . . an Election Commission of five members to control and conduct all high school elections.

# The Student Council

. . . an Alumni Association to retain interest in the High School after graduation.

A "Miss Norwood High" dance was held late in April to help fill the Council's coffers. As a final project a "Norwood Night" at Pops was sponsored by the Council in May, the first town night in Pops history.

To Miss Johngren, the faculty advisor, a great portion of the credit for the success of this year must go. Without her wise counsel and hard work much that was accomplished would still be in the talking stage.

In Norwood High we are fortunate; our Student Council *is* run by the students for the students, with no interference from our elders. We make mistakes but they are our mistakes and we profit by them. Thus our student government today makes for better town, state, and national government tomorrow.

GIRLS' BASKETBALL TEAM

Captain Bob Maini and his Rifle Team

# BASKETBALL

This year's basketball team, under the leadership of Coach Murray and Captain Jordano completed the schedule with a record of four wins and five losses.

The jinx that followed the football team was still in evidence, for what should have been a fine season turned into a mediocre one with only occasional flashes of brilliance. One consoling note is the fact that four of the losses sustained were by five points or less. The most thrilling game was the 41 to 38 loss to a heavily favored Franklin club—a game in which the blue and white rose to tremendous heights only to be overcome in the final seconds.

Outstanding performances were turned in by every member of the team, but Lady Luck refused to smile on their efforts. Captain Jordano's excellent playmaking ability, together with "Rolly" Esper's shooting eye and the all around play of "Joe" Conti composed the frontal attack, while Seniors "Teddy" Tomm and "Charlie" Parker, together with second year "Pete" Carchedi, formed an effective defense.

The Norwood seconds, composed of Venterosa, Campisano, Mattson, Murray, Sykes, and Thomas were unmindful of jinxes, and raced through six straight games before tasting a loss. A close contest was lost, split evenly, thus giving them a closing record of 7 wins and two losses.

Good luck to next year's Captain Joe Conti.

## Track Team

Front row—Tauber, Thomas, Giampietro, Co-Captain Hawley; Co-Captain Garner, Davol.  
Second row—Manager LeBlanc; Ronci; Donahue; Wassil; Giampa; DeRoma; Carchedi; Coach Wheeler.

## Golf Team

Left to right, front row—Chubet; Chamberlain; Holman; Ahearn; Doucette; Billingham; Coach Learnard.

# BASEBALL

A group of 45 hopeful candidates turned out on April second to form what is hoped will be another typical Norwood High School team.

Coach Murray is especially blessed with good material this year—headed by Captain Frannie Harrington, Ed Mondor, and Charlie Parker, all of whom were regulars on the Championship nine of two years ago. Also on deck are: Bob Chandler who has had some experience behind the plate, Joe Conti, smooth fielding short stop, Neenie Bortolotti, all around man, and outfielder Ken MacDonald. The main pitching duties will fall upon the shoulders of Sophomore Ted Campisano aided also by pitchers Mondor, Holman, and Tomm.

The schedule includes such games as: Natick, Framingham, Wellesley, Needham, Hyde Park, Walpole, Franklin, and our arch rival Dedham.

The team hopes to win its share of these games and then—on to Fenway Park and the Schoolboy Championship.

Last Year's Veterans

Coach Murray and Captain Harrington

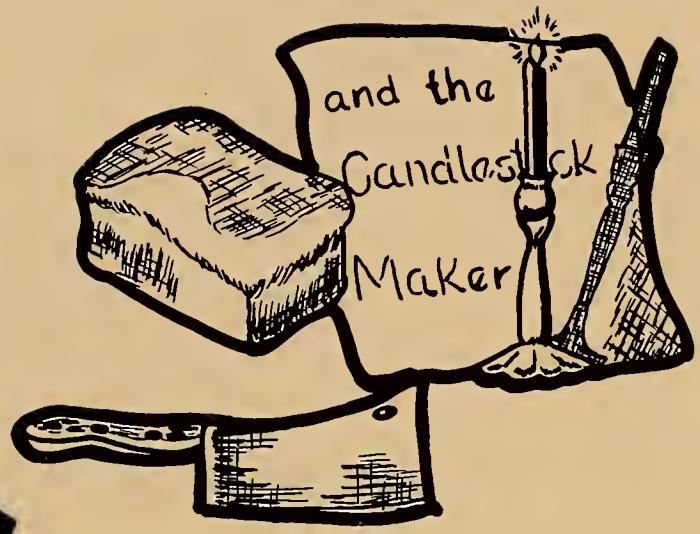

*Remember---*

*finally, Our Senior Year*

That first assembly in September, when after two years of patient waiting, they stood while we entered . . . our two weeks of hard labor on the football programmes; the typesetting, proofreading, and feeling of pride as they rolled off the presses . . . the cheering section at the football games, our songs, "The Yellow Garter", "Father dear Father", plus the cider and "He is a Cop!" . . . how we begged, borrowed, or stole a ride to the out of town games . . . when we tried to ring the bell in the Municipal Building after the Scituate game . . . "Senior Day", when all but the huskiest Sophomores were seen carrying our books . . . the one and only class meeting at which we all voted on both sides of the same question . . . the "Rah for the Czar" and "Crow Meeting Tonight" howls, which we screamed at every chance . . . the Learnard-Georges, DeRoma-O'Sullivan combinations that worked so well . . . the Thursday afternoons we stood around the corridors waiting for the baking class to let us sample their wares . . . the third period gym class where relay basketball, close harmony, and "Chubie's" winter underwear kept everyone but Benny in high spirits . . . the business like attitude in our health classes . . . Mr. Thompson's never to be forgotton "sugar at the draft board" slip . . . the trials and tribulations of Mrs. White as she faced "the club" every day . . . running from Northampton Street to the Arena so that we wouldn't miss "first ice" . . . our "Norwood" sign and the confetti . . . the bus rides from Forest Hills, when we learned how the sardines felt . . . learning Chinese at the Bamboo while we ate hot chicken and French fries instead of Chop Suey . . . the birthday celebrations in the lunchroom with a whoopie pie for cake and matches for candles . . . those parties for Navy bound lads where reputations were made or lost . . . the spider that frightened all the senior girls . . . our milkless Wednesday and Thursday . . . efficiency plus as the yearbook staff met in Room 134 every night at 1:30 . . . the senior, sophomore reciprocal friendship agreements . . . Miriam Ristom's plucking of the violin string at the psychological moment in Assembly . . . the Thursday night "games" where jokes, cigars and money were exchanged . . . the "who's he taking?" talk that went 'round before the Senior Prom . . . the shortage of assemblies due to a surplus of bottle breaking . . . and last of all the co-operation, hard work, and laughter of the 167 who made '43, '44, and '45 years that will live forever in our minds and hearts . . .
